

Warrington Rowing Club Competitor Parking – Guidance Aug 2014

The club requests that competitors do not park cars on Kingsway Bridge which can affect traffic flow of this main road and is deemed unsafe. Parking restrictions may well be in place.

Competitors are requested to park cars at the top tarmacked section of Howley Lane, along Holmesfield Road, and Farrell Street. Permission has also been granted by several businesses at the top of Howley Lane to use their car parks. Faircloughs Ltd is one of these businesses. Club helpers will provide guidance on the day.

The track section of Howley lane down to the club is pot holed and house building activity has narrowed this route. Only trailers with towing vehicles, race officials and those making deliveries should proceed down the track to club. At all times any parking must provide sufficient width for emergency services to access the club and landing stage.

Thanks for your support and compliance.
